

Mildura Rural City Council

Native Vegetation Policy

Policy – CP065

Prepared	Reviewed	Approved	Date	Council Minute No.
Environmental Sustainability Coordinator	ELT	Council	March 2024	2024/0038
EDMS File: 18/02/01		To be reviewed: March 2029		
Document Owner: Manager Community Partnerships		Review Frequency: 5 Years		

1. The purpose of this policy is

To state Council's approach to the management of native vegetation on Council managed land.

2. Policy Statement

Mildura Rural City Council is responsible for the management of native vegetation on both freehold land and land under Council's Committee of Management. This includes municipal roadsides, the Murray River Permanent Reserve and various other parcels. Council recognises the value of native vegetation in providing:

- Wildlife corridors and habitat,
- supporting ecosystems and biodiversity,
- amenity,
- ecosystem services such as, windbreaks and soil conservation,
- heritage value

Council is committed to protecting and managing native vegetation in accordance with State Government regulations.

3. Principles

Native Vegetation Management

The protection of native vegetation on Council land is considered a high priority. Management actions in areas of native vegetation include but are not limited to:

- The prevention/closure of unauthorised tracks with fencing, bollards, logs etc.
- litter/illegal dumping collection
- revegetation with indigenous species

- mulching
- pest plant and animal control
- strategic provision and maintenance of recreational areas/furniture (picnic tables, authorised tracks and parking areas) that are sensitive to the natural environment

Native vegetation impacts will be identified and considered in the planning stage of all projects, with the protection and avoidance of damage to native vegetation a priority. Employees with the potential to impact native vegetation will be appropriately trained in native vegetation management.

Native Vegetation Clearing

Any proposed native vegetation clearing on Council land, or unique use requests on Council land containing native vegetation must go through Council's Land Managers Consent process. The purpose of the clearing must be clearly conveyed including demonstrated avoidance in accordance with State Government regulations.

Illegal clearing on Council land will be managed in a consistent and transparent manner. A clear decision-making process will be followed for prosecution of illegal native vegetation clearing on Council land.

4. Implementation

Manager Facilities & Asset, Manager Community Partnerships, Manager Statutory Planning, Manager Parks & Recreation, Manager Works & Infrastructure, Manager Engineering Development & Delivery.

5. Definitions

Murray River Permanent Reserve	Land along the Victorian banks of the River Murray permanently reserved as Crown Land for public purposes. This is typically an area approximately 60 metres (3 chains) from the water's edge.
Native Vegetation	Native local plant species growing naturally in the environment that has not previously been cleared. Can be a single tree/plant or a patch of many trees/plants. Also includes regenerated and areas planted (with Australian natives) that are older than 10 years.
Unique Use	Use other than passive recreational use such as apiary, special events, fire management activities, utility access requests.
