What is the Education Centre?

The Education Centre is a multipurpose community education facility displaying sustainable design elements, building practices and technologies.

The purpose of the Education Centre is to educate the community about sustainable living practices and regional self-sufficiency.

The centre is a community building and will be accessible to the public. It is designed to be used for many purposes such as a community meetings space or to deliver or participate in a broad range of educational experiences.

Where is it?

The Education Centre is located at the Mildura Eco Village Scherger Drive

What are sustainable design features?

The award winning Education Centre includes the following sustainable design features:

- The Education Centre is a 9 star rated building
- The materials used were chosen to reduce the embodied energy of the building
- Passive solar, energy efficient architecture appropriate to semi arid region
- Natural daylight to reduce electricity usage, and energy efficient lighting throughout.
- Double glazing used on external doors and windows.
- Water collection, conservation and reticulation
- Solar energy for power and hot water
