

MILDURA RURAL CITY COUNCIL PUBLIC OPEN SPACE STRATEGY

Mildura Rural City Council recognises that high-quality public open space plays an important part in the community's overall health and wellbeing and is working with Tredwell to develop the Mildura Public Open Space Strategy.

The Strategy will guide Council's provision and future management of public open space and will contribute to the achievement of the community vision to be 'the most liveable, people-friendly community in Australia'.

For the purpose of this project, the term 'public open space' is defined as "Publicly accessible parks, reserves and natural areas that are managed by Council for the purposes of public recreation, conservation, amenity or landscape enhancement".

If you visit any of Council's parks and open spaces, we would like to hear about how you use these spaces, how often you visit and what you would like to see in the future. Uses might include exercise, walking the dog, visiting playgrounds, socialising with friends or simply relaxing in a park.

HAVE YOUR SAY!

ONLINE SURVEY:

Open until: Sunday 30th August | Link: <https://www.surveymonkey.com/r/MilduraPOSS>

COMMUNITY ONLINE WORKSHOP / WEBINAR:

Thursday 13th August 6 – 7.30pm | Register: [Here](#)
or go to: <https://www.mildura.vic.gov.au/Contact-Us/Have-Your-Say>
