Mildura Urban Forest Strategy

Council recently commenced working with Mesh Planning to prepare a Mildura Urban Forest Strategy. The term 'Urban Forest' refers to all trees and shrubs present in an area, which provide long-term community benefits, such as cooler and more attractive streets.

The aim of Mildura's Urban Forest Strategy is to expand tree canopy coverage in public spaces such as streets and parks across our main city and smaller townships. Other forms of greening can also be incorporated into the strategy following further analysis and what we learn from the community.

We want to hear your thoughts on your experiences with street trees and parks, what the issues and opportunities are, relating to expanding shade and tree cover across Mildura's urban areas.

Your comments will inform the next stage of the project, where we will define a vision and strategies to create and expand the overall Urban Forest coverage.

An online community workshop will also be held from 6 – 7:30pm, Tuesday 22 November 2022. At this session, you can learn more about the project from the consultants preparing the strategy and participate in interactive activities to provide your input.

An online survey will be available until 14 December 2022. To complete the survey or register to attend the workshop, please access via the link on the Have Your Say page at: mildura.vic.gov.au

For any questions about the project, next steps and related information please visit the project page at <https://yoursay.mildura.vic.gov.au/> or contact Council's project officer Bernadette George via: planning.services@mildura.vic.gov.au or the Strategic Planning Team on 03 5018 8100.
