

# CBD Access and Mobility Strategy

Following the recent adoption of the CBD Plan 2020-2035, Council has appointed the Institute of Sensible Transport to prepare a CBD Access and Mobility Strategy.

This project commenced in August 2020 and aims to improve access and mobility to and around the Mildura CBD. A key objective is to see more people choose to walk, cycle, or scooter into the CBD rather than drive.

Over the past 12 months Council has heard from the local community via online stakeholder workshops and surveys. Based on feedback provided, and detailed policy and data analysis investigating car park access and demand, a Draft Mildura CBD Access and Mobility Strategy has been prepared for public comment.

The report, along with a video presentation and further background information is available at [mildura.vic.gov.au/cbdstrategy](http://mildura.vic.gov.au/cbdstrategy)

You can also access the report at one of the locations below:

- Council's Madden Avenue Service Centre
- Mildura Library (The Alfred Deakin Centre, 180 Deakin Avenue)

Written comments can be addressed to Mr Peter Douglas, Coordinator Strategic Planning, MRCC, PO Box 105, Mildura, Victoria, 3502 or sent by email to [planning.services@mildura.vic.gov.au](mailto:planning.services@mildura.vic.gov.au)

You must include your name and postal contact details. Written submissions provided are considered public documents and issues/matters raised therein (including authorship) may be reported in an open Council meeting agenda.

Should you not have access to the internet, the above office is closed or not accessible during office hours, please contact the Coordinator Strategic Planning on 03 5018 8100 to make alternative arrangements to view the documents.
